Bud Explosion by Greenleaf Nutrients

Bud Explosion 0-2-4

Maximize flowering sites and nodes for initial weeks of flowering. More flower sites means bigger harvest and improved overall yields. Also can be used as a PK/blooming/flowering enhancer at later stages of flowering/budding. This formula is similar to Bud Ignitor.

Analysis

Phosphorous (P)	23%
Potassium (K)	44%

Dosage: 1 tsp to 24 Liters, or .25 grams per Liter. For long life, keep as dry form and mix into liquid when ready to use as needed.

Storage: Dry nutrients can absorb water from the atmosphere and may be degraded by light. Store in dry, dark container.

PH Balance: Adding any nutrients or additives may effect pH of nutrient solution. To get a proper pH, add the nutrients first, then finally measure and balance pH in your final formula mix after.

Derived from: Potassium monobasic Phosphate, Potassium Sulfate, Ascophyllum Nodosum
